

Please do not limit anything on satilite radio. I have had to spend my hard earned money to purchase this device, because the local radio stations did not have the programing I liked. This is not limited to radio, I also have satilite TV for the same reasons. The only thing I do miss, is local broadcasts of trafic, which was not very good here in eastern Cincinnati. I would be thrilled if XM could start broadcasting local Cincinnati traffic. Seeing what they do with their other programing, I know they would do a much better job.
Thanks,

Jerome R Schoettelkotte
